

SYLLABUS

Italian program BCC (Bellevue Community College), 2002 - 2003

Instructor: Ronald Foglietti – ronald@foglietti.com

The following is a brief introduction to the Italian program.

BCC offers more one than one level of Italian. This Syllabus is a simple overview for those students who will take one or more levels of Italian with Ronald Foglietti.

Continuing Ed programs do not require any test and no grade is being applied to the student.

Personally I consider the student in the Continuing Ed environment an *active participant* more than a student. An active participant is motivated primarily by their own interest and personal goals. Grades are considered less important. Personal growth is emphasized. The instructor will be evaluated by the participants as a final request from the school.

This Syllabus is also applicable for my Italian in Italy program. This is a full immersion course occurring every May in Italy. On page 2 of this document the participant will find a list of pages from the textbook Prego! 5th Edition. This list does not report the first four chapters of the textbook. These chapters are covered largely in Italian level one. Some of the listed pages will be used in level one also.

Missing classes. Please be in touch with another class participant if you miss class in order to be briefed about the missing lesson. You may contact the instructor directly via email as well.

Handouts. These are easy to download from <http://italianissimo.foglietti.com>

They are in DOC or PDF formats.

If participant is absolutely unable to download any of the handouts the instructor will provide a hardcopy upon request.

Moreover a large array of information can be found from the same web site regarding Italian books, movies, travel, online newspapers and so forth.

Thank you for you participation in my classes.

Ronald Foglietti
Italian instructor
